ENVIRONMENTAL POLICY

OCTOBER 2009
REV. 1.1

ENVIRONMENTAL POLICY

We, the Directors of Delmar Group Limited, commit our intention to ensure that all working practices undertaken by this organisation, will as far as is reasonably practicable, comply with the requirements of the Environmental Protection Act.

We will ensure through the continuous evaluation of working practices that as far as is practicable, no harm or damage will occur to the environment through toxic emissions, unauthorized disposal of toxic and other waste materials, noise pollution or any other area covered by this Act.

We will inform, instruct and train all of our operatives and employees in the standards laid for the protection of the environment while they are undertaking work for this organization.

This organization will encourage all employees to recycle materials where possible, to use toxic or other hazardous materials safely and according to the method statement for the work and to use all general utilities efficiently to guard against wasting resources.

Where flammables are used, we will put suitable and sufficient control measures in place to ensure that fire risks are kept to a minimum and inform, instruct and train our operatives in these control measures.

All environmental control measures implemented by this organization will be monitored on a regular basis and evaluated for their efficiency.

We will abide by the environment standards laid down by the Principal Contractor on all our worksites and will communicate any special requirements to our operatives prior to them commencing contracted work on site.

SIGNED:  (Martin Delbosq - Managing Director)

SIGNED:  (Angela McKee - Company Secretary)
